Convertree Landing Page — Final Copy

After-Hours Evelyn Repositioning

SECTION 1: HERO

Badge (pill):
AFTER-HOURS AI RECEPTIONIST

Headline:
Your clinic closes at 6pm.
Evelyn doesn't.

Subheadline:
Evelyn takes over when your human receptionists go home — answering every after-hours call, capturing every lead, and logging them for your team to follow up in the morning. No changes to your existing staff or systems. Just add a number to your website and Google profile, and she's on.

CTA Buttons:

SECTION 2: DEMO — "Interview Evelyn"

Section heading:
Interview Evelyn Before You Hire Her

Subheading:
Enter your details and Evelyn will call you in the browser — exactly the way she'd sound answering your after-hours line. Put her through her paces.

Bullet checklist (right side):

- Ask her which languages she speaks
- Ask her how she learns about your business
- See if she stays professional under pressure
- Watch her collect customer details naturally
- See how she qualifies a lead and closes for next steps

Phone UI label:
Evelyn — After-Hours Receptionist

Form note (below form):
Enter your name and work email to unlock the live voice demo. The in-browser demo may be recorded — use a microphone in a quiet place. We handle your details as described in our Privacy Policy.

SECTION 3: WHO IT'S FOR

Section heading:
Built for businesses that can't afford to miss a call after hours

Tags (lead with validated niches):
Dentists & clinics · Restaurants · Real estate agencies · Beauty salons & spas · Home services & trades · Hotels & lodging · Veterinary & pet care · Legal & professional · Retail & storefronts · Automotive repair · Tutoring & education · Other service businesses

SECTION 4: HOW TO HIRE EVELYN (Process — before offer)

Section heading:
How to Hire Evelyn as Your After-Hours Receptionist

Subheading:
From interview to live in about a week. No IT project. No disruption to your existing team.

Step 1 — Interview
If you haven't already, interview Evelyn before you hire her. Call her in the browser and see how she handles your customers — whether she stays professional, collects details naturally, and represents your business well. You wouldn't hire a human without an interview.

Step 2 — Training
We help train Evelyn on your business — your products, services, hours, and how you like things handled. You choose her language, voice, and tone. You can even give her a new name. We also set firm guardrails on what she can never say to a customer.

On languages: Evelyn speaks fluent English and Mandarin. Cantonese is still difficult for AI voice technology — we won't recommend it until it's genuinely good. If you'd like to test it anyway and decide for yourself, we're happy to set that up.

Step 3 — Assignment
We give you a dedicated number for Evelyn. Your human receptionist can forward all calls to her before going home — or you can list her number directly on your website and Google Business Profile as your "After-Hours Number". Or both.

No new systems. No changes to how your team works during the day. If you'd like help adding the number to your Google profile, we'll do it for you — it takes about 10 minutes.

Step 4 — Optimize
We monitor how Evelyn performs on real calls and improve her over time — just like you

would with any employee. Once a month, we send you a report: how many calls she took, what customers asked about, and how many enquiries turned into bookings.

Process CTA:
[Let's Chat →]

SECTION 5: HIRE EVELYN AT NO RISK (Offer)

Section heading:
Hire Evelyn at No Risk

Stat 1 — 7
Live in 7 days
Evelyn can be answering your after-hours calls within a week of you hiring her. No long IT project. No disruption to your existing team.

Stat 2 — 100%
Zero missed calls — guaranteed
If Evelyn misses even one after-hours call in your first 30 days, you get your money back. No questions asked.

Stat 3 — $$$
See the revenue you've been missing
We can't guarantee a specific number — every business is different. But we'll show you exactly how many calls Evelyn catches after hours, and what those callers were worth. You'll see the ROI in the first month.

Tech logos strip:
TECHNOLOGIES WE USE
n8n · Make · OpenAI · Anthropic · ElevenLabs · Twilio · Calendly · Your CRM

SECTION 6: EVELYN'S UPGRADES (Add-ons)

Section heading:
Evelyn's Upgrades

Subheading:
Your base package includes email lead notifications and automatic Google Sheets capture — so your team always wakes up to a fresh list. Need more? These upgrades are available once your after-hours line is running. We scope each one with you — no public pricing on this page.

Card 1 — CRM Integration
Your leads already go into Google Sheets automatically. But if your team runs on Salesforce, HubSpot, or another CRM, we can pipe Evelyn's captures directly into your existing system — no manual entry, no copy-paste.

✓ Maps to your existing fields & workflows
✓ Built on n8n / automation infrastructure

Card 2 — Automated Lead Magnets
When Evelyn captures a lead after hours, she can immediately send the caller something useful — a dental hygiene guide, a service menu, a special offer — whatever fits your business. Keeps your brand warm while they wait for your team to follow up in the morning.

✓ Custom collateral per business
✓ Sent automatically at end of call

Card 3 — Advanced Analytics & Monthly Reports
Your base package includes call volume, duration, and basic lead data. If you want to go deeper — what customers are asking at 10pm, which enquiries converted, where your after-hours leads are coming from — we build you a tailored monthly report with the metrics that actually matter to your business.

✓ Custom report built around your KPIs
✓ Delivered monthly, ready to share with your team

SECTION 7: FINAL CTA

Heading:
Interview Evelyn yourself.
If she passes, we'll send you a free, no-obligation quote.

Subheading:
Try the demo above and hear exactly how Evelyn would sound on your after-hours line. Happy with what you hear? We'll put together a personalised quote for your business — no commitment, no pressure.
